Description

Fugawi Routes CD for Volume 2:

This CD includes all of the Volume 2 GPS Routes in Fugawi Software format, which can be uploaded to your GPS in minutes.

1. You must have Fugawi Software to upload with this CD
2. You must purchase/own a copy of the Volume 2 guidebook to order this CD
3. If you do not have the guidebook Vol. 1, I highly recommend purchasing it first since V2 is a supplement that does not include pertinent information included in V1.
